

### A Cell of The Offshore Mutual Fund PCC Ltd

#### Minimum Disclosure Document (MDD) and Factsheet as at 31st October 2023

#### Investment Objective

The Martello Global Equity Fund ("the Fund") aims to achieve long term capital appreciation through investment in listed equities on a global basis.

The fund is primarily intended for investors with a long-term horizon of at least 5 years.

#### Investment Strategy

The Fund will invest in a diversified portfolio of listed equities. Assets of the Fund are typically limited to, but not confined to, those companies listed on the markets of the UK, Europe and North America.

The investment advisor will apply a rigorous investment selection methodology to select securities for the Fund's investment portfolio. These criteria are designed to ensure that the Fund invests in high quality businesses with proven management competencies and strategy execution.

It is envisaged that the investment portfolio of the Fund will be concentrated, comprising between 20 and 30 stocks. However, the portfolio will be invested with the aim of providing a prudent spread of risk, and there are limits on the concentration of the investments held.

	<u>36 Months</u>		
Total Expense Ratio (TER)	1.31%		
Transaction Charges (TC)	0.26%		
Total Investment Charge (TIC)	1.57%		

36 Month Total Expense Ratio (TER) and Transaction Charges (TC) is based on the latest available data and expressed as a percentage of the daily NAV of the Fund calculated over 36 months to 31 October 2023 and shown on an annualised basis. TER and TC are also shown for the 36 month period to 31 October 2023. TER is a measure of the total costs associated with managing and operating an investment fund, excluding transaction costs which are shown separately. These costs consist primarily of management fees and include custody fees, audit fees and other operational and establishment expenses. Transaction costs are necessary costs in the management of the fund and include brokerage, taxes, and levies due on purchase and sale transactions. The TIC represents the sum of the TER and transaction charges.

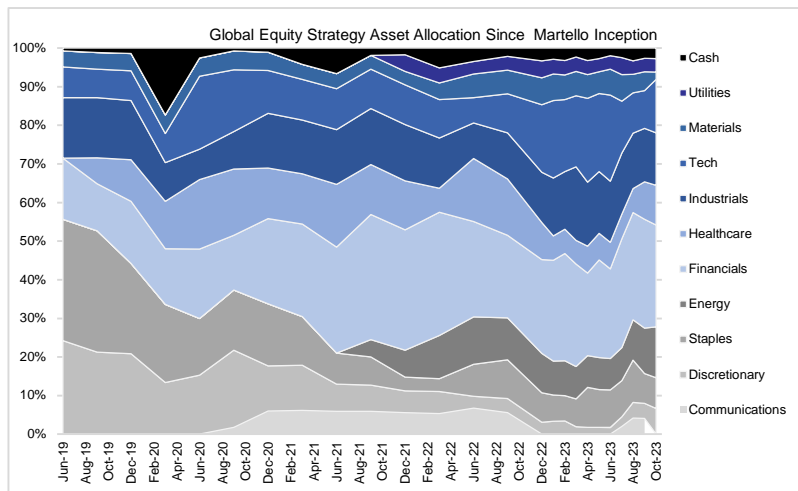

The investment performance shown is for illustrative purposes only and is calculated on the published price of the Fund. It does not take into account initial fees, but is presented net of all other fees, including the annual management charge. Income is accumulated. Actual performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Past performance is not necessarily an indication of future performance. The Fund was launched in July 2020. The maximum and minimum consecutive 12-month returns are since inception. This is a measure of how much the Fund and the benchmark returns have varied per rolling 12-month period. All rolling 12-month figures for the Fund and the benchmark have been calculated using the Fund net asset value and the level of the relevant benchmark index.

### Fund Commentary – October 2023

October was a disappointing month for world equity markets. The markets were in positive territory until 18<sup>th</sup> October when the 10 year US Treasury yield approached 5%. This impacted equity markets causing a fall of -4.35% over the course of 10 days. The 10-year yield has now retraced back to below 4.6% and this, combined with a generally positive set of quarterly earnings releases has helped the equity markets regain their footing.

During October, equity markets were, once again very narrow with the technology sector breaking even on the month with all other sectors slipping. After a very strong run for the energy sector between May 2023 and mid-Oct 2023, the sector succumbed to profit taking even as Treasury yields moved higher. The energy sector is often directionally correlated with 10 year US Treasury yields and the increasing yield from May 2023 has aided the energy sector. Due to the narrowness of breadth within the market, the fund's performance was slightly below benchmark levels at -4.48% versus -3.14% for the Morningstar Developed Market index.

The central banks in the US and UK held rates unchanged at their most recent meetings and potentially interest rates in these regions are at or very close to their peaks. The quarterly earnings reporting season began in mid-October and of the 18 of our holdings that have reported 67% have exceeded market expectations. This is promising and augurs well for the remainder of the year.

Within the portfolio the contributors to return during October were Procter & Gable (+3.5%), Visa (+2.2%), SAP (+3.04%) and ASML (+0.9%). The detractors to performance were Exxon Mobil (-9.9%), HSBC (-8.7%), AstraZeneca (-8.2%) & Amadeus (-6.1%).

**Additional factors to be considered when investing**

The Fund is invested in a concentrated portfolio which comes with the risk of more volatile returns relative to the broader market.

Investors are reminded that an investment in a currency other than their own may expose them to a foreign exchange rate risk. Exchange rates may also have an independent, favourable or unfavourable impact on the value of the Fund. The Fund will invest in global equities and securities, which may expose the portfolio to specific country risks such as macroeconomic and political risks, foreign exchange risks, tax risks, settlement risks, potential limitations on the availability of market information as well as potential constraints on liquidity and the repatriation of funds.

**For professional investors and advisors only. Issued by Martello Asset Management Ltd.**

This document is for information purposes only and should not be construed as an investment advertisement or investment advice in any form. This document does not constitute or imply any tax advice, which should be sought elsewhere.

The Fund should be considered a medium- to long-term investment. Prices may fall as well as rise and all investments are subject to risk, including the risk that you may lose all the money that you have invested. Past performance is no guarantee of future performance.

If it is prohibited to promote or make this Fund available in your jurisdiction (by reason of nationality, residence or otherwise) this is not directed at you. The fund is not available to US citizens or investors.

The Martello Global Equity Fund (the "Fund") is a cell of The Offshore Mutual Fund PCC Ltd (the "Scheme") (Registration Number 51900). The Scheme is an open-ended investment company, which was registered with limited liability in Guernsey on 20 May 2010, and is authorised by the Guernsey Financial Services Commission ("GFSC") as a Class B Collective Investment Scheme. The Scheme is an umbrella company constituted as a Protected Cell Company under the Guernsey Companies Law. The provisions of the Companies Law enable a company to which it applies to create one or more cells for the purpose of segregating and protecting the assets within those cells so that, on the basis that the company complies with the conditions laid down by the Companies Law, liabilities of the company attributable to one cell can only be satisfied out of the assets of that cell and even if those assets are insufficient, recourse cannot be had to the assets of any other cell.

Guernsey International Management Company Limited is the registered Manager of the Scheme and the Fund, and is approved to provide investment management services to collective investment schemes in Guernsey by the GFSC. The Manager does not provide any guarantee, either with respect to the capital or the return of this cell. Martello Asset Management Limited (the "Investment Advisor") (Company Registration No: 127947) is responsible for managing the assets of the Fund. Martello Asset Management Ltd is licensed and regulated by the Jersey Financial Services Commission (Funds Services Business Licence 2324).

The Fund was approved by the Financial Sector Conduct Authority of South Africa on 30 July 2020 in terms of Section 65 of the Collective Investment Schemes Control Act, 2002 (the "Act"), Notice 2076 of 2003 as amended by notice 1502 of 2005 ("the conditions"). The Fund complies and is managed within the investment restrictions and guidelines for Foreign Collective Investment Schemes in terms of the Act. The Scheme and Fund are approved in terms of the Act. The Scheme is an affiliate member of the Association for Savings and Investment South Africa ("ASISA").

The Fund may use derivatives for efficient portfolio management purposes only, which may include currency hedging. Short-term borrowing will be allowed to the amount of 10% of the value of the Fund, only for purposes of the redemption of participating shares. Scrip lending will be allowed but may not exceed 50% of the market value of the portfolio. A schedule of fees and charges and maximum commissions is available from the Investment Advisor. The cell is valued daily at 23h00, on the business day preceding dealing day and is traded at the ruling price.

Additional information on the Fund can be obtained from the Investment Advisor ([www.martello-am.com](http://www.martello-am.com)) or may be requested from the Manager. The latest prices may be viewed at <https://www.martello-am.com/funds-martello-global-equity-fund>. The Manager reserves the right to close the fund to new investors to manage the fund more effectively.

All investment returns are shown net of transaction costs and should not be deducted again for comparative purposes. Any additional fee charged by a financial services provider to distribute the product to you is not included in the TER and must be disclosed to you separately.

A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and can impact returns. They should not be considered in isolation as returns may be impacted by many other factors over time including the accumulation of assets, market returns, the type of fund, the investment decisions of the investment manager and the TER.

The information contained within this document is believed to be correct at the time of release but cannot be guaranteed. Opinions constitute the judgment of Martello Asset Management Ltd which are subject to change.
